THE RIVER.

The river was about stationary yesterday, with seven foot eight inches water in the canal, by the mark at day. During the previous twenty-four hours it had fallen an inch. She starts from Louisville at 6 o'clock, and takes freight and passengers to all and every way point.

The stanch side-wheel packet Des Moines came in from St. Louis yesterday, having a large lot of corn among her freight receipts.

The Des Moines returned to St. Louis this evening at 6 o'clock, from Portland, passengers and shippers will find a safe, comfortable boat, and the clerk, Morrison and Easton, are at the dock to receive the cargo.

Norfolk to Springfield, the Memphis Appeal, of Tuesday, contains the following cable in reference to boats landing at the port of Norfolk.

For Norfolk, April 4: The down stream boats have been induced to make this landing, because they have understood that the tariff on the coast of the State was in operation at this point. The arrangements are not yet complete for collecting the tariff at this place, and you will please inform the fact that boats may not be delayed in landing to this point.

Yours truly,

C. W. NELMS.

LOUISVILLE FOR NEW ORLEANS.—The Swift clipper Louisville, Capt. W. H. Hollcroft, takes her departure for New Orleans this evening. We predict that she will prove to be one of the fastest boats on the Western waters.

To the attention of Ed Harper, of the B. J. Adams, a staunch friend of Southern Rights, we are indebted for a miniature of President Jeff Davis, set in a blue cockade.
